

Center for Student Involvement

Volunteer Programs

Volunteer Programs connects students to a variety of volunteer experiences in Carrollton and beyond. These experiences are designed to foster a community-engaged campus through the promotion of self-discovery, servant leadership, and community service initiatives.

Promo runs all year round in all participating branches.

Community Fair

Each semester we bring our local community partners to promote their agencies and inform students about various volunteer experiences. Join us and meet our off-campus community partners who are always looking for volunteers.

Each month, Volunteer Programs coordinates community-engagement projects and experiences that address social issues prevalent in Carroll County and surrounding communities. These experiences are designed to connect students with the local area, develop a social-justice lens, and learn how small change can make a big impact.

Give Back Days occur both on and off-campus. Space and transportation are limited. RSVP on Volunteer Programs' GivePulse group to be guaranteed a space.

Alternative Break

UWG's Alternative Break program, #BreakingWest, immerses students with under-resourced populations during school breaks with the goal of creating positive social change.

Participating in this program will be an experience you are unlikely to forget. All trips will include transportation, housing, and group meals at a low cost.

The BIG Event is one of the largest, one-day, student-run service projects in the nation where college students come together to say, "thank you", to the residents of their community. Students, faculty, staff, and alumni participating in this annual spring event show their appreciation to the surrounding community by completing service projects such as park restoration, trail beautification, painting, and crafting useful items for under-resourced populations.
